PROFESSIONAL EXPERIENCE

Full Stack Software Engineer | HoundDog | Columbia, MO (Remote) Dec. 2022 - Oct. 2023

- Implemented a message board with CRUD functionality within the Ruby on Rails application to enhance communication and efficiency for our clients' administrators
- Spearheaded the automation of an email/text notification system by leveraging Brevo and Twilio APIs
- Designed insurance forms from scratch with CSS and Bootstrap
- Participated in daily stand-ups and regular code reviews, and utilized Agile development with Jira

Insurance Specialist | Unum Insurance Group | Portland, Maine Nov. 2019 - Aug. 2022

- Calculated benefit payments using payroll, tax information and Excel

Accountant | ALPS Funds | Denver, CO Apr. 2018 - Jun. 2019

- Calculated net asset value for designated groups of mutual funds, ensuring accurate financial reporting
- Acquired proficiency in Excel-based accounting

Co-Founder | BANKR App | Remote Jun. 2017 - Apr. 2018

- Led the design and UI/UX process for the app, from initial wireframes to prototypes
- Employed Agile development methods to translate designs into a functional app, overseeing the coding process to ensure alignment with design specifications and quality standards
- Collaborated with vendors to strategize and implement robust security systems and API integrations within the application

Accountant | Janus Capital Group | Denver, CO Jan. 2017 - Jun. 2017

- Calculated net asset values for designated groups of mutual funds, ensuring accurate financial reporting
- Conducted in-depth analysis of fund data to proactively identify potential discrepancies

Founder | Omega Nuts | Portland, Maine Nov. 2014 - Jan. 2017

- Created the sacha inchi brand to market the Peruvian nut *sacha inchi*
- Primary duties included development of an e-commerce website, bookkeeping, and social media marketing and analytics

EDUCATION

Software Engineering Immersive | General Assembly | Remote

Jan. 2022 - Apr. 2022

Completed an intensive twelve-week program focused on product development fundamentals, object-oriented programming, MVC frameworks, source control, data modeling, and team collaboration strategies

BS, Business Administration, Marketing | University of Missouri | Columbia, MO

Aug. 2005 - Jul. 2009
